**BLUE BIRD®
COMMERCIAL
BUSES**

Built To A Higher Standard

A heritage of looking ahead.

Safety first. Quality that lasts.

- ---

When you're making a commercial bus buying decision, your main concerns are the safety and comfort of your passengers – and the reliability of your bus. Blue Bird® Commercial Buses deliver the best in both categories.

A long history of passenger protection

Quality = reliability and longevity

At Blue Bird®, we're used to meeting the stringent body construction standards required for school buses. In fact, we have a well-earned reputation for quality and durability that's also affordable.

You'll be glad to know we apply those same principles to our commercial line. You're assured of the "best of the best" construction and safety. You can also look to Blue Bird® for innovations that boost fuel economy, enhance driver visibility and improve passenger comfort.

Blue Bird's exacting standards applied throughout our buses translate to a host of benefits for you, including:

- Lower maintenance
- Higher uptime
- Lower repair costs
- Extended years of service

Blue Bird® Commercial Buses are simply designed to outlast other buses. That means you can look forward to getting your commercial passengers where they need to go comfortably, safely, year after year.

Proven Body Design

All Blue Bird buses have a number of parts in common, reducing parts and service complexity.

Fuel Tank Location

The fuel tank is strategically mounted between the frame rails for added safety and durability.

Zero Maintenance Fasteners

Blue Bird's Huck-Spin® fasteners will never require re-torquing throughout the life of the vehicle – one more way Blue Bird helps reduce standard maintenance.

Reliable Body Electrical

Positive locking body electrical terminals ensure reliable connections and make maintenance quick and easy to increase route uptime.

Ready for the most rugged road conditions

Think “built like a tank.” Anvil-strong and practical. But with the comfort and ergonomics that ensure your passengers will thoroughly enjoy the ride. A real trooper, your Blue Bird® commercial bus delivers “crank every time” confidence you won’t find anywhere else. That’s why it’s no surprise that every Blue Bird Commercial Bus is 10-year, 350,000-mile Altoona tested.

ONLY THE BEST POWERTRAIN AND FUEL OPTIONS

Blue Bird® buses are built with nothing less than top quality components from the best powertrain partners, including:

- Cummins | Allison | Ford
ROUSH CleanTech

You choose the fuel type that fits your application:

- Diesel | Propane | Gasoline | CNG

Ergonomic Driver's Cockpit

Designed to comfortably fit virtually any body size, the cockpit has an advanced dashboard that matches the Blue Bird Vision for seamless driver transition.

Overhead Parcel Racks

Provide spacious storage capacity. Designed with lightweight modular aluminum composite materials and anodized aluminum extrusions. Comes with options for LED reading lights and a/c outlets.

Electronic Options

Reading lights, Wi-Fi, Soft Touch interior, video system, surveillance cameras, and many other luxury electronic options are available on request.*

Advanced Seating Options

To fit your specific needs, Blue Bird offers a wide variety of seat design, layouts, fabrics and coverings – including a number of Blue Bird Fire-Block Vinyl options.

* Options are available through Blue Bird Factory as well as your local Blue Bird Dealer

Custom built specifically for your needs

Your job is to envision exactly the right bus. Our job is to make it. That's why Blue Bird® offers so many features to choose from, including buses with custom interior layouts, seating options and finishing options. The comfort of the ride is guaranteed with a variety of convenience and vehicle performance features.

You're free to tailor your transportation solution to do exactly what you need it to, whether it's transporting a team, a tour group, church members, retirement community residents – or simply moving any group safely and reliability.

Getting your commercial passengers where they need to go comfortably, safely, year after year.

Kneeling System

Designed to lower front entrance step, this system makes it easier to load and unload passengers safely.

Large Palette Of Paint Colors

To satisfy demand for a durable, attractive, high quality paint finish, we use PPG's Delfleet® paint system with its wide variety of color choices.

ADA Lift

This advanced lift system features a power up, gravity down control to conserve power, handrails and a manual backup system.

Transit Sliding Windows

Thick laminated glass bronze tint with 28% light Transmittent and a number of options for opening.

New Standard Window Design

Improved top seal, with a felt seal, on the upper and lower sash and an enhanced lock rail. Allows for ultrasmooth operation.

SO MANY CHOICES, ALL WITH UNRIVALED BENEFITS

Blue Bird offers a complete portfolio of buses, with seating capacity ranging from 10 to 48 passengers. That means you don't have to go to two different dealers to get all the bus sizes you need. It also gives you one convenient place to go for all the service and aftermarket needs down the road.

Blue Bird's purpose-built design, robust construction, and dedicated sales and service support come together to offer you unmatched value over the entire life of your Blue Bird® bus.

Now the question is: **which one can we build for you?**

- Quality
- Safety
- Durability
- Reliability
- Longevity
- Comfort
- Innovative
- Proven
